

SHIVA PRASAD

Cybersecurity Fresher

Hyderabad, India | 8919370581 | shivaaprasad2723@gmail.com

LinkedIn: [linkedin.com/in/shiva-prasad-547909268](https://www.linkedin.com/in/shiva-prasad-547909268) | GitHub: github.com/shiva2723

PROFESSIONAL SUMMARY

Cybersecurity fresher with hands-on experience in network analysis, security monitoring, vulnerability assessment, and cybersecurity tools. Skilled in Python, networking fundamentals, Wireshark, Nmap, and Linux. Developed practical security projects involving web honeypots and SOC-focused security log analysis. Seeking an entry-level opportunity in cybersecurity or security operations.

TECHNICAL SKILLS

Programming: Python, C

Networking: TCP/IP, DNS, HTTP, OSI Model

Cybersecurity: Network Security, Ethical Hacking, Vulnerability Assessment

Security Tools: Kali Linux, Wireshark, Nmap

Operating Systems: Linux, Windows

Version Control: Git, GitHub

EDUCATION

B.Tech, Cyber Security - DRK College of Engineering and Technology | JNTUH 2023 - 2027 | CGPA: 7.74/10

Intermediate - TS Model Junior College | Telangana Board of Intermediate Education 2023 | 88.1%

SSC - TS Model School | Board of Secondary Education 2021 | 9.7/10

PROJECTS

OWASP Python Honeypot

Python, Flask, SQLite, OWASP Top 10

- Developed a low-interaction web honeypot to simulate a vulnerable web application in a controlled environment.
- Implemented activity and request logging to capture suspicious interactions.
- Applied OWASP Top 10 security concepts to understand common web application threats.
- Analyzed captured activity to support security investigation and learning.

GitHub: github.com/shiva2723/Honeypot

AI-Powered SOC Analyst

Python, Flask, HTML, CSS, JavaScript, CSV

- Developed a SOC-focused application for analyzing and categorizing security logs.
- Implemented threat categorization and severity assessment for security events.
- Built a Flask-based API to support the application workflow.
- Developed a dashboard for presenting analyzed security events and supporting SOC investigations.

GitHub: github.com/shiva2723/AI-powered-SOC-Analyst

INTERNSHIP

Cybersecurity Intern - Blue Cloud Softech Solutions

May 2026 - June 2026

Tools: Wireshark, Nmap, Kali Linux

- Analyzed network traffic and packets using Wireshark.
- Performed basic network and port scanning using Nmap; identified open ports and basic network services.
- Used Kali Linux for hands-on cybersecurity activities and security testing.
- Applied networking and security concepts in practical exercises.

CERTIFICATIONS

- Falcon Administrator | CrowdStrike University
- Introduction to the Threat Landscape 3.0 | Fortinet
- Certified Security Operations Professional | Palo Alto Networks
- Network Defence | Cisco

DECLARATION

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge and belief.
